

Sikorsky S-76 Mercury Mod™

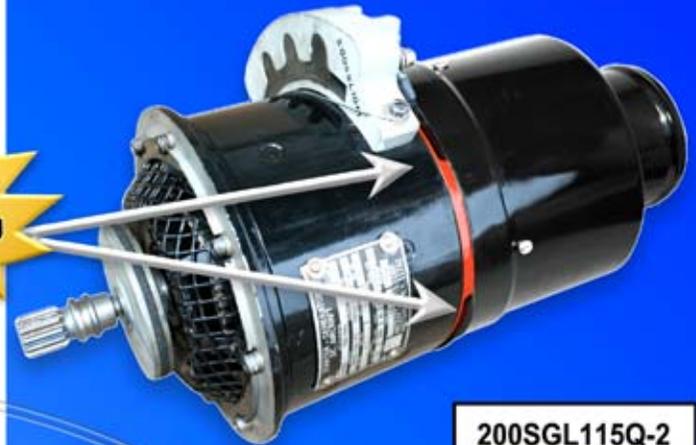

· Unparalleled Quality

Take advantage of NAASCO's exclusive Mercury Mod™ Improvements for the 200-amp APC starter generator fitted to your Sikorsky S-76.

· Greater Reliability

Modified anti drive-end endbell and other advanced internal elements assure greater cooling - this equates to substantially improved reliability and efficiency.

Exhaust ports added for increased cooling

200SGL115Q-2

· Proven Reliability

Over four years of extensive testing by Sikorsky Engineers makes NAASCO's Mercury Mod™ a proven winner!

· Best Value

We strive to maintain the highest levels of quality, reliability and dependability to give our customers the "Best Value" for the maintenance dollar.

Since 1984, NAASCO has provided cost-effective, state-of-the-art repair solutions for a variety of aircraft components.

**Sikorsky Aerospace Services and NAASCO
Sign Exclusive Distribution Agreement for S-76®
Helicopter Starter Generator Modification**

ANAHEIM, Calif., Feb. 23, 2009 – Sikorsky Aerospace Services, at Heli-Expo today joined in the signing of an exclusive distribution agreement with NAASCO Aerospace Services for an improvement to the S-76® Helicopter Starter-Generators. Sikorsky Aerospace Services is the aftermarket business of Sikorsky Aircraft Corp., a subsidiary of United Technologies Corp. (**NYSE:UTX**).

The NAASCO Mercury Mod™ improvements were shown to extend the time between overhauls and typical life use of the Starter-Generators by providing a cooler operating temperature while concurrently offering lower operating costs and enhanced performance. The modification is available now to customers upon request.

“This distribution agreement is a great example of the exceptional cooperation between the Sikorsky Cure Engineering team with NAASCO, a sub-tier supplier, to improve a product and heighten customer satisfaction,” said Samir Mehta, President, Helicopter Support, Inc. The Cure Engineering team and NAASCO conducted extensive testing of the Mercury Mod™ over a four-year period, with results that verified increased reliability in the product. H.S.I. is pleased to bring this enhancement to customers as we continue to focus on their support and satisfaction.”

H.S.I., in cooperation with NAASCO, will distribute the product to support customers.

NAASCO Aerospace Services, located on Long Island’s Brookhaven Airport in New York at 222 Grand Ave in Shirley, will be celebrating its 25th anniversary in May 2009 and has been a pioneer in the overhaul and repair of starter generators with the development of the ETR-20 and ETR-25 Mercury Mod™ improvement programs.

Sikorsky Aerospace Services provides comprehensive support to rotary and fixed wing aircraft around the world. It offers its military and commercial customers a full portfolio of support services through its aftermarket companies, Derco Aerospace, Inc., Helicopter Support, Inc., Sikorsky Support Services, Inc., Composite Technology, Inc., and Sikorsky Aircraft Australia – Helitech.

Sikorsky Aircraft Corp., based in Stratford, Conn., is a world leader in helicopter design, manufacture and service. The company’s mission statement reflects its long commitment to safety and innovation: “We pioneer flight solutions that bring people home everywhere ... every time™.” United Technologies Corp., based in Hartford, Conn., provides a broad range of high technology products and support services to the aerospace and building systems industries.
