NAASCO ANNOUNCES PREFERRED DISTRIBUTION ALLIANCE WITH ROTORCORP LLC

Shirley, NY, March 2, 2020 – NAASCO, the developers of the ETR-25™ “Mercury Mod™” starter generator improvements for use on Agusta, Bell, Airbus-Eurocopter, MD, Schweizer, Sikorsky and others, has established a preferred distribution alliance with Atlanta, GA based Rotorcorp LLC in support of our Robinson R66 Turbine Helicopter starter generator services. Recently, NAASCO obtained FAA approval for its repair process on the RR30000412 starter generator using OEM or superior parts and can issue a dual release FAA/EASA 8130 tag for the overhaul and other repairs performed on these units.

“As the world’s largest seller of parts and components for Robinson R22, R44 and R66, Rotorcorp, this was the perfect choice for NAASCO as we continue to expand our distribution alliances,” stated Mike Leslie, NAASCO’s President & CEO. He went on to say, “Rotorcorp’s CEO Sean Casey has assembled a fantastic team and has developed a robust ecommerce site that adds tremendous value to our existing sales efforts.”

“We are always pleased to work with partners that share our passion and drive to deliver the best solutions to customers,” said Rotorcorp CEO Sean Casey. He continued, “The can-do culture is alive and well at NAASCO.”

About NAASCO: Opening its doors in April 1984, NAASCO has served the aviation industry for over 35 years as a FAA and EASA approved repair station. Its leadership team brings a combined electrical, mechanical, and avionics experience of over 250 years. During this time, NAASCO changed the aviation industry by introducing its specialized designed engineering solutions that focuses on improved reliability while solving planned obsolescence. Two of NAASCO’s most successful product offerings are its starter generator ETR/Mercury Mod and Sil-Met motor, contact, relay, and terminal blocks.
