

BEECH 1900 ETR-20™ PRODUCT BULLETIN

UNMATCHED RELIABILITY FOR BEECH 1900

23078-019 * 23085-001
300SGL116Q

Actual photo of armature commutator and NAASCO's ETR™ brushes removed from unit overhauled with our advance ETR-20™ improvements. After 1067.3 hours of service, armature commutator wear measured at .003"

Enjoy 1,000 hours of worry-free service with NAASCO's unparalleled ETR-20™ Improvements for the 300-ampere APC or Lucas starter generators fitted to your Beech 1900 aircraft.

Since 1984, NAASCO has provided money-saving repair and overhaul solutions for troublesome, obsolete, or otherwise costly components. We are confident that our ETR-20™ improvements will further enhance your component's reliability and performance while substantially reducing your maintenance costs. All ETR-20™ starter generator overhauls are backed by our exclusive 1,000-hour starter generator brush life warranty.

At NAASCO, we strive to maintain the highest levels of reliability and dependability to give our customers the competitive edge.

ETR-20™ upgrades extend the life of your components by:

- Eliminating carbon contamination
- Drastically reducing commutator wear
- Increasing starter generator reliability
