

## Sikorsky S-76 Mercury Mod™

200SGL144Q

200SGL115Q-2

Exhaust ports added for increased cooling

### UNPARALLELED QUALITY

Take advantage of NAASCO's Mercury Mod™ Improvements for the 200-amp APC starter generator fitted to your Sikorsky S-76.

### GREATER RELIABILITY

Modified anti drive-end endbell and other advanced internal elements assure greater cooling – this equates to substantially improved reliability and efficiency.

### PROVEN RELIABILITY

Over four years of extensive testing by Sikorsky Engineers makes NAASCO's Mercury Mod™ a proven winner!

### BEST VALUE

We strive to maintain the highest levels of quality, reliability, and dependability to give our customers the "Best Value" for the maintenance dollar.

Since 1984, NAASCO has provided cost-effective, state-of-the-art repair solutions for a variety of aircraft components.
